

New Trustee Chairman Named

Mrs. Charles A. Higgins, Jr.
(Louise Tardivel)

Louise *Tardivel* Higgins (Mrs. Charles A. Jr.) was recently elected to serve as Chairman of Lasell's Board of Trustees. She succeeds Rosalie *Brightman* Rosen (Mrs. David) who had served as Chairman since 1969.

A resident of Weston, Ma., Mrs. Higgins has been an industrious alumna for many years. She is a past President of the Lasell Alumnae Board of Management, Inc., was Chairman of the Annual Fund for several years, is a member of the Lasell Corporation and has been a member of the Board of Trustees since 1959. In 1972 she was awarded a Lasell Medallion "in recognition of having added distinction to the name of Lasell."

Mrs. Higgins is also an avid gardener with a truly "green thumb", plays tennis and has been active in church work and as President of the Newton-Wellesley Hospital Aid Association.

Barry Scholarship Approved

The Lasell Board of Trustees, at its Annual Meeting, approved the establishment of a scholarship to be named in honor of Charles E. Barry, former Chairman of the College's Retailing Department.

A member of the College faculty from 1966 until his death in July, 1975, Dr. Barry was a graduate of Harvard and held an M.S. from Simmons College and a D.Sc. from Portia Law—Calvin College.

The Barry Scholarship will be awarded annually to a student in the Retailing program. Anyone desiring to contribute to the Barry Scholarship Fund should contact: Mr. Charles Quinlan, Director of Development, Lasell Junior College.

College Opens With 573

A retention rate bordering on 84% and a freshman class of over 300, accounts for Lasell beginning its 1975-76 academic year with an enrollment of 573 students.

Although the total student body number has not changed appreciably from that of 1974-75, this year's entering class is larger than that of last year. The total figure, and projections for next year, bear out national statistics showing enrollment in private colleges is again on the increase.

Career programs lead the way in enrollment figures with the Nursing program topping the field. Other

programs showing definite increases are: Retailing, Community Mental Health, Executive Secretarial, Child Study, and Art. These increases also bear out national statistics that show today's students are entering the higher educational system to better prepare themselves for job-hunting.

Lasell Bulletin Undergoing Some Changes

Due to increased costs, both in paper stock and postage, the *Lasell Bulletin* will be undergoing some changes in format. You will notice that this copy (News from Lasell) has been enlarged to carry more copy, including Alumnae Class Notes (see Reunion Notes, page 3).

It is our desire to continue bringing you information about the College six times a year and to maintain the quality of our publications by expanding this and other issues. We have not given up our magazine style *Bulletin* but, frankly, are not able to print as many issues due to budgetary "belt tightening."

The editor invites suggestions, articles and opinions from all readers.

Homecoming Events Highlight October

Lasell's first Homecoming Weekend proved to be a successful venture—and, possibly, the start of a new College tradition.

Highlight of the weekend was the dedication and formal opening of the new Student Center facilities, named in honor of Alfred C. Edwards. Edwards is a member of the Lasell Board of Trustees, Vice President of the Lasell Corporation, General Chairman of Lasell's Capital Campaign—"A Program for '76" and father of Gail, Lasell '67.

Other weekend events included: the Greater Boston Lasell Alumnae Club Annual Bazaar, an Art Department faculty exhibit, Riverday (winners were the Day Hop crew), an alumnae cocktail party at the home of President and Mrs. Griffin, dinner and dance, a Sunday Brunch and Powderpuff Football game.

Whatever Happened to The Class of '75

Each year the Placement and Transfer Office sends a questionnaire to the members of the graduating class shortly after they leave the College.

These questionnaires help Lasell to not only keep track of the whereabouts of her alumnae, but also help to provide the necessary statistics regarding the percentage of those students who choose to continue their education at a four year institution—and those who seek employment upon completing their two years at Lasell.

This year's graduating class numbered 285. Of the graduates polled, 205 returned the questionnaire. Of the 205 who responded—135 are working and 70 are furthering their education at four year colleges or universities.

Places of employment include: Lord and Taylor, Yale-New Haven Hospital, First National Bank of Boston, Service Center for Greater Lawrence (Ma.), G.T.E. Sylvania Company, New England Medical Center, the Living and Learning School, American Home magazine,

Liberty Mutual and the Christian Science Monitor.

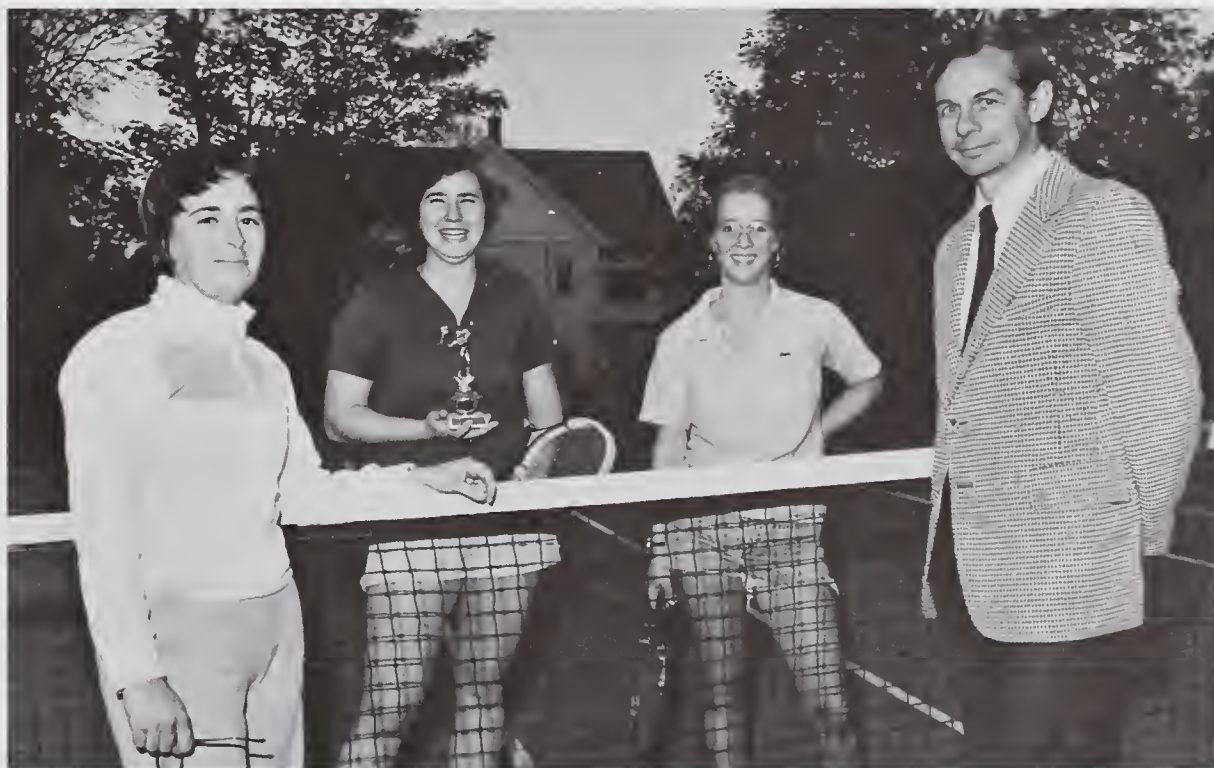

Lasell graduates have matriculated at (a partial list): Northeastern, Syracuse University, University of New Hampshire, University of Colorado (Boulder), Lesley College, Rutgers, Boston University, American University, Holy Cross, Boston College, University of Connecticut, University of Maryland, Rochester Institute of Technology and Springfield College.

New Appointment

Mrs. Mary A. Dunn of Wayland has been named to the position of Financial Aid Director at Lasell. She succeeds Mrs. Carol Wishoski who has taken a position with the State of Massachusetts.

Mrs. Dunn is a graduate of William Smith College (Geneva, N.Y.) and is presently a candidate for a M.Ed. in Educational Counseling and Counseling Psychology at Boston College.

Prior to her appointment at Lasell, Mrs. Dunn held positions on the admissions staffs at Clark University and Wheaton College.

One of Ours

The following is reprinted, with permission, from Boston Magazine, November, 1975: "At Random: Latent Collegians" by Marge Hiatt Bernstein.

Whitney Robbins, of Medfield, graduated with the Class of '60 from Wheaton College, in Norton, where she majored in art history and French. Today, at the age of thirty-five, she is studying anatomy, physiology and microbiology in a nursing program at Lasell Junior College. And while her friends were playing tennis and gardening last summer, Robbins was emptying bedpans and timing labor pains at the Lying-In Division of Boston Hospital for Women.

In the early Sixties, when her husband was a Columbia Business School student, she worked at the Metropolitan Museum selling art prints. "When we moved back to Boston, I settled in as a suburban housewife. But I felt very sheltered from the real world. I got terribly fed up going to committee meetings. Now I get tremendous satisfaction from the nursing program and beginning clinical practice." She admits there are trade-offs. When you have a house to clean, a thirty-page paper to type, and you're tired after eight hours of hospital

duty, there's a limit to your availability—and patience—for mothering. "You scream, yell and tear your hair out sometimes, but anything is possible and you can adjust your life," philosophizes Robbins.

Ed. note: Whitney Robbins expects to graduate from the Lasell Nursing program in May, 1976. She first started, as a part-time student in 1972, and has maintained a cumulative average that has put her, to date, very close to honors level.
